Overview

There is a growing need of precision-driven and future-ready solutions in Pakistan which is why dynamic and trusted names such as Radiant Solutions RS Private Limited has emerged. We are focused on advancing technologies in four interrelated domains; Information Technology, Biomedical & Surgical Healthcare, Energy, Water Resources, and Soil & Environmental Monitoring. Our sustained commitment to innovation, efficiency, and sustainability enables us to serve public institutions and private sectors, and even research organizations, with a complete range of Sales, Services, and Support—All Under One Roof.

"Leading transformation is what great companies do. In health, science, technology, and engineering fields, they Radiant Solutions RS Private Limited proudly leads the transformation.

Our deepest appreciation goes to ALMIGHTY ALLAH for the innumerable blessings He has showered on us. This journey has been adorned with values of service, integrity, and steadfast commitment to unmatched excellence.

Starting off as a medical supply and monitoring technology firm, now we have evolved into a multidisciplinary solutions provider, serving various sectors such as healthcare, water, energy, environmental sciences, and IT. This has only been possible with the trust and loyalty of our clients and the strength of our dedicated hardworking team.

We look forward to sustaining this journey of impact and excellence alongside all of you. This way we will be able to make a difference through the continued investment in innovation, human capital, and ethical business practices, owing to the society and environment.

MESSAGE FROM THE FOUNDER

Warm Regards,

**KAMRAN HYDER
MEMON CEO**

INDUSTRY FOCUS

Radiant Solutions RS Private Limited proudly operates across the following key domains:

Information Technology & AI Powered Solutions

Software Services

Graphic Design

Digital Marketing

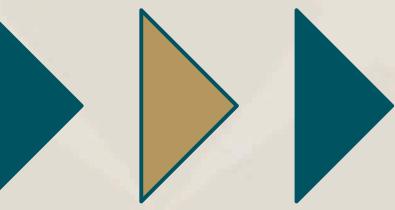

Other Services

Energy Management & Monitoring Systems

Biomedical & Surgical Healthcare Solutions

Water & Soil Innovations (Hydrology, Geotechnical & Environmental Monitoring)

COMPANY RANGE OF ACTIVITIES

We are committed to excellence, sustainability, and adaptability. As an certified company, our activities range from supply, integration, training, after-sales support, and research collaboration in the following sectors:

01

Smart IT Infrastructure & Data Management Systems

02

Software Services

03

Graphics Design

04

Digital Marketing

05

Medical Equipment & Hospital Technology

06

Renewable Energy & Monitoring Solutions

07

Water & Soil Environmental Instruments

08

Civil, Structural & Geotechnical Engineering Tools

PRODUCTS & SERVICES

1. Information Technology & AI-Powered Solutions

- AI-powered apps, software, and web solutions
- Sensor Embedded System Software
- Artificial Intelligence (Machine Learning Neural Network)
- Cyber Security Systems
- Data center and cloud storage setup
- Digital diagnostic systems and software
- Enterprise servers & network hardware

PRODUCTS & SERVICES

2. Software Services

- Attendance Management
- Construction & AI Power System
- HR Management
- Staff Management
- Finance Management
- Blockchain-Based Software System
- Tour & Travel Software System

PRODUCTS & SERVICES

3. Graphic Design

- Logo & Brand Identity Design
- Social Media Graphics
- Brand Consistency Systems
- Creative Visuals. Strong Brands.

PRODUCTS & SERVICES

4. Digital Marketing

- Strategic Digital Marketing Solutions
- Social Media Growth & Brand Visibility
- Lead Generation & Conversion Focused

- Content Creation & Copywriting
- Brand Strategy & Digital Consulting

SEO, Other

PRODUCTS & SERVICES

6. Biomadical & Surgical Equipment

- Diagnostic and laboratory medical devices
- Healthcare consumables
- Hospital installation and commissioning services
- CSSD surgical instruments and sterilization systems
- Critical care and OT solutions

PRODUCTS & SERVICES

7. Energy Equipment

- Solar energy monitoring systems
- Power quality instruments
- Load, current, and voltage analyzers
- Smart metering & digital control panels

PRODUCTS & SERVICES

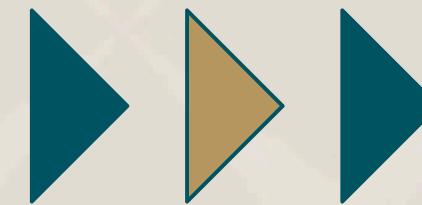

8. Water & Soil Innovations (Environmental Equipment)

- Flow meters, piezometers, pressure cells, tilt sensors
- Soil mechanics & hydraulic lab equipment
- GPS-enabled ADCP boats for bathymetric surveys
- Inclinometers, extensometers, and data loggers
- Equipment for hydrology and environmental diagnostics
- Complete turnkey solutions for labs and field deployment

COMMITMENT TO QUALITY

We have strict quality measures in place at all touchpoints. Radiant Solutions RS Private Limited is certified and follows international standards to guarantee consistency, safety, and performance. The team is compliantly trained for proactive compliance and quick response support.
